

Overview

This whitepaper examines the Archdiocese of San Antonio and how My Catholic Faith Delivered™ (MCFD) tailored a technology solution that uniquely met its needs. This document will examine the solutions and results. In addition, it will examine challenges that have presented themselves within the Catholic Church and a potential approach to solving them.

Challenge | Archdiocese of San Antonio

The Archdiocese of San Antonio is the oldest established Catholic entity in the state of Texas comprising more than 23,000 square miles over 9 counties. Its 139 parishes and 34 missions serve a Catholic population of approximately 1.2 million persons. Providing faith formation and education opportunities over such a vast area has always been a challenge, one which the Archdiocese of San Antonio is striving to meet with the increasing availability of online resources and rapidly growing digital literacy.

Solution | Archdiocese of San Antonio

Since 2012, MCFD has been a partner in assisting the Archdiocese to meet this challenge. Through their Faith Foundations and Catechesis 101 products, almost 500 persons have been able to achieve Level 1 Catechist Certification, an accomplishment which would have been more difficult, time consuming, and costly through the traditional classroom means. Beginning in the fall of 2015, changes in certification requirements for Catholic School Teachers NOT teaching religion will go into effect. This impacts both elementary and high schools and includes personnel such as coaches and math/chemistry teachers. They will complete the Faith Foundations program as part of the efforts to strengthen a consistent Catholic identity throughout all Archdiocesan schools.

“My Catholic Faith Delivered is a consistently reliable source for faithful Catholic formation programming and resources. If it’s on MCFD, I can recommend it.”

Gloria F. Zapiain, M.A.

Director, Archdiocesan Catechetical Center
